DUNN ON THE STAND IN FT. WAYNE MURDER TRIAL

Shows No Emotion in Court.

MOTHER TELLS HER STORY

Special to the Indianapolis Journal. FORT WAYNE, Ind., June 6 .- The state concluded its direct evidence this afternoon in the trial of Charles Dunn on the charge of murder. The last witness for the state was Mrs. Cothrell, mother of the alleged victim, Alice. She testified that she drew three pails of water from the cistern as late as 2 o'clock on the afternoon that her daughter was missed. This cistern was in the Dunn home, where the body was found five days later. She said that she leaned over and looked in the cistern at the time and believes that there was not then over two feet of water. If the body of Alice had been there at the time she believes that she would have seen it. With this testi-

mony the state rested. Attorney S. L. Morris, for the defense, then addressed the jury. He stated that there had been no testimony that Alice had been seen in the company of the delendant on the afternoon of the alleged murder. There had been no witnesses to show that the little girl had gone in the direction of the barn that afternoon. There were no witnesses to show that she had been seen going in the direction of, or anywhere near, the barn that afternoon. There was absolutely no motive for the crime. The defendant at the time was sixty-two years old and had walked far in the hot July sun before he reached home. There was no possibility at his age that he would be imbued with any lustful passion. At conclusion of the speech Charles Dunn, the defendant, was placed on the stand. He began by telling of his early life. He told the story coolly and collectedly. He showed not the slightest emotion. He said that he got home about 2 o'clock. This was about the time Mrs. Cothrell said she looked in the cistern. With Dunn on the witness stand court adjourned until to-morrow.
